"The MORE that you READ,
The more things you will KNOW.
The MORE that you LEARN,
The more places you'll GO."
-Dr. Seuss

Did you know that March 2nd is Dr. Seuss's birthday and he would have been 116 years old? Dr. Seuss is most famous for the numerous children's books he wrote and published. In 1997, Dr. Seuss's birthday also became known as *Read Across America Day.* This special day promotes reading and inspires children and young adults to participate in different reading activities.

Physicians' Primary Care would like to provide a "literacy-rich" environment for children at all of our pediatric offices and offer the opportunity for them to leave with a book for themselves. Fostering the love of learning early in life is the key to ensuring that children are successful. Encouraging and enriching children to read is more promising with the availability of books.

During the month of February and March, PPC will be collecting new and previously loved books for our Pediatric Division. Each of our offices across Cape Coral, Fort Myers, and Lehigh Acres will have donation boxes in their lobbies. There are approximately 5,500 children that come through our

doors on a monthly basis. Donations of children's books would be greatly appreciated.
